Liquid Extracts

LUCKY 90 15ML

NEW!

LUCKY 90 15ML

Introducing Lucky 90, our premium kratom extract featuring an impressive 90% Mitragynine concentration. We focused solely on the mitragynine alkaloid and all other sub alkaloids are found in trace amounts.

Carefully sourced from the finest kratom leaves in Southeast Asia, this extract is designed for those who appreciate high potency and quality.

SKU: Z15V90

Retail Unit Price: \$19.99

Display: 20 units

Master Case: 240 units

**Servings: 3 per unit
(80mg MIT per serving)**

800.882.0878 SALES@BOTANAWAY.COM

LUCKY 80 15ML

Zion Herbals Lucky 80 15ml 80% Liquid Kratom Extract is made from our 80% mitragynine extract. We focused solely on the mitragynine alkaloid and all other sub alkaloids are found in trace amounts. Specifically, the 7-Hydroxymitragynine alkaloid is removed almost completely leaving a very energetic alert experience only achieved through high purity. Contains 53 mg of mitragynine per serving and 3 servings per bottle. Comes with a 1 mL dropper top for measuring accuracy. The color and appearance of this is light yellow and very consistent.

SKU: Z15V80

Retail Unit Price: \$17.99

Display: 20 units

Master Case: 240 units

**Servings: 3 per unit
(53mg MIT per serving)**

65 SALT 15ML

65 Salt is a new product which dissolves easily in any carbonated beverage or liquid with a low. pH of between 2.5-3.5 such as lemon ice-tea. No longer a full spectrum extract, there is a significant reduction in the lesser-known alkaloids found in natural kratom with a focus on Mitragynine. The salt-base provides for quicker absorption and noticeably quicker effects.

SKU: Z15V65

Retail Unit Price: \$17.99

Display: 20 units

Master Case: 240 units

**Servings: 3 per unit
(43mg MIT per serving)**

24K GOLD 15ML

Zion Herbals Liquid Kratom Extract 24k Gold is made from our 45% kratom extract and also converted to a truly water-soluble form which has a higher bio availability than any other liquid extract on the market. This formula uses an extraction process that uses low heat and results in a higher purity extract at a similar price as the Gold Reserve.

SKU: Z15V45

Retail Unit Price: \$14.99

Display: 20 units

Master Case: 240 units

**Servings: 3 per unit
(50mg MIT per serving)**

Liquid Extracts

GOLD RESERVE 15ML

GOLD RESERVE 15ML

Zion Herbals 15ml Gold Reserve Liquid Kratom Extract is made from our 30% kratom extract but converted to a truly water-soluble form which has a higher bio availability than any other liquid extract on the market. This formula uses food grade natural solvents and a no heat extraction process that is proprietary and unique. Made in small batches on a craft scale.

SKU: Z15V33

Retail Unit Price: \$13.99

Display: 20 units

Master Case: 240 units

SPECIOSA SHOT

Zion Herbals Speciosa Shot is not your typical Kratom Extract shot. We have carefully crafted the Speciosa Shot with our 45% Mitragynine extract and a blend of special botanicals and compounds traditionally used for their calming and relaxing properties.

Our proprietary blend includes 50 mg Mitragynine (MIT), the amino acid L-Theanine (considered the calming component of green tea), White Willow Bark (believed to have been used by humans for thousands of years), Passion Flower (sometimes used for relaxation and sleep, and more).

Liquid Extracts

KFUSION

KFUSION

KFusion by Zion Herbals provides the perfect balance of calming Kava Kava and high quality Kratom Extract in a delightful 2 ounce drink. Experience the synergy of two of nature's finest botanicals.

Kava, also known as Kava Kava or Piper methysticum, is a plant native to the Pacific Islands, and has been consumed by people for hundreds of years for a variety of purposes. Today, Kava has gained popularity for relaxation, in social settings as an alternative to alcohol, and in supporting restful sleep.

GOLD RESERVE 10CT TABLETS

GOLD RESERVE TABLETS 10CT

Being a "Full Spectrum extract" means that it also still contains all of the other alkaloids and lipids that are found in the Kratom leaf. An enriched extract, the 45% gets to a point where we will start to lose some of the other alkaloids as the percentage of Mitragynine goes up beyond 45%. This is our benchmark extract. It is the complete full spectrum alkaloid fraction of the plant with all of the other major alkaloids occurring in similar levels and proportions as they are found in the plant.

Extract Tablets

SILVER SERIES 10cT TABLETS

SILVER SERIES TABLETS 10cT

Good quality leaf powder contains approximately 1.25% Mitragynine. This extract contains 10% Mitragynine which makes it significantly more potent than leaf powder. Being a "Full Spectrum extract" means that it also still contains all of the other alkaloids and lipids that are found in the Kratom leaf. Being less refined and not as pure as our other extracts the 10% can be described as being very similar to the leaf powder that it was made from, with the advantage being that for a typical dose of 2 teaspoons or 4.5gm of leaf powder you would only need ½ gram of this extract to achieve exactly the same effects.
